Re: Letter of Reference for Hong Dau Construction Co., Ltd

This is to confirm that Hong Dau Construction Co., Ltd completed the Floor Tiles Remedial Works at Academic Blocks A, B, C and D of the Hong Kong Institute of Education, Tai Po campus in fall 2004. The contract value of the project was close to HK\$4 million.

Under the leadership of their Technical Director Mr. Horace Lam, the project was completed on time, of good quality and within budget. The project staff of Hong Dau are conscientious and cooperative. With their strong team spirit, the progress was so smooth and was actually completed well ahead of the scheduled completion date specified in the contract.

I have full confidence in recommending Hong Dau to clients/consultants and am looking forward to working with them in the future.

Yours faithfully

Andrew Kung
Project and Facility Manager
